MEMORANDUM FOR : Chief, Materiel Staff, Development Projects Division
SUBJECT : Property Records Status H1102 Constellation 1649 Aircraft
REFERENCE : CON-200

1. It has just occurred to me to inquire whether or not we have blanketed the [REDACTED] into Agency property records since we acquired it last winter, and if so, I would be interested in knowing where the records are being maintained, since if they are maintained at the [REDACTED] we will want to info them on any equipment changes that we make over the succeeding months.

2. To my recollection the only items of GFE presently on the plane are a Loran set and one of the command radios. Your records may be different, and I would appreciate being advised if there are items over and above these two pieces of equipment which may have been supplied by Bob Welch.
